JOB ROLE:

- Follow all Health and Safety policies, requirements.
- Final programming, test, and Calibration of Gas Detection Instruments
- Final stage of instrument assembly as required.
- Identify and fix, where possible minor faults on instruments as required.
- Process orders received from sales in SAP
- Monitor gas supplies and other stock items held in calibration and recommend when low for re-ordering.
- Maintain production information through Microsoft Applications.
- Data input on spread sheets.
- Stock check.
- Under guidelines from Team Leader fulfil requirements required for working day.
- Attend, participate in internal meetings when required.
- Assisting other departments in ION Science as needed, cross training as needed.
- Work effectively with team members, management teams and other key members to ensure delivery of production targets and customer demand.
- Minimise waste, work in a tidy, methodical manner.

SKILLS/EXPERIENCE:

This is a hands - on role and the person appointed will be:

- Excellent with manual dexterity
- Proficient in IT skills using Microsoft office packages
- Have the ability to learn
- Be a team player
- Possess a high initiative
- Be punctual

- Have excellent levels of attention to detail
- Excellent at building rapport with internal departments
- Have the ability to problem solve
- Have a flexible approach
- Possess a strong work ethic

BENEFITS:

- 25 days annual leave + Bank Holidays (annual holiday increasing with service)
- Excellent employer pension contributions of 8% after probation
- Life Assurance of 4 times of pensionable salary
- In-house training
- Discretionary Annual Bonus
- On site shower & changing facilities
- Long term service awards
- Monthly lunch & drinks laid on by the company
- Sick Pay
- Christmas Party
- On-site parking
- Private Medical with AXA
- Bike Purchase Scheme
- Car share scheme
- Early finish on Fridays

WORKING PATTERN:

- Monday to Thursday: 08:30 – 17:00
- Friday: 08:30 – 15:45
- Immediate start available
- Full time – Permanent position

LOCATION:

This role is based at the ION Science head office, located in Fowlmere, 10 miles south of Cambridge and is an on-site role.

OUR CORE VALUES:

Due to the high volume of CVs we receive, it might not be possible to provide feedback to all applicants. If you are successful, we will be in touch to arrange a call with our recruitment manager.
